

Data Sheet E – Results of Internal Review Committee

Date of Review/Recommendation: March 26, 2008

Water Body Under Evaluation:

Water Body ID #: 0865
Name: Flat Creek (Class C)
Length of Segment: 21.8 miles
County(ies): Pettis

Use Attainability Analysis (UAA) Study:

UAA ID #: 0649
Submitter: Pickett Ray and Silver
Date(s) Conducted: September 15 – 16, 2007
Date Received: October 31, 2007
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
- ☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
- ☐ 3-Non-Remedial, Human Caused Condition.
- ☐ 4-Hydrologic Modifications.
- ☐ 5-Natural Physical Features.
- ☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown

Comments: The UAA survey was conducted in September 2007 and no WBCR was observed. No interviews were conducted during the survey. Fishing tackle was noted at site #13. Existing WBCR and SCR are documented in interviews from 2005.

Is the evaluated use attainable? ☒ Yes ☐ No

Comments: The stream met the maximum depth criterion in 8 out of 13 sites evaluated and the median depth at 2 of those sites. Due to existing use and to meeting the depth criteria, the committee recommends the WBCR use designation be retained. Due to evidence of secondary contact (fishing tackle, interviews), the committee recommends Secondary Contact Recreation be retained.

Committee Recommendation:

☐ Add Use ☒ Retain Use ☐ Remove Use
☐ Modify Use ☐ Inconclusive
